

Notes for competitors

The regatta is run under British Rowing Rules and the Row Safe guide

All crews must register no later than 1 hour before their race is due. Failing to do so risks disqualification.

All crews should have their British Rowing Race Licence available for inspection if required.

Crews will not be called forward and should make their own way to the start. Crews must be at boat pairing with their opposition at least 30 minutes before the published start time, or they risk disqualification.

The lowest numbered crew in each race will take the Town Side station.

No practising is allowed on the course.

Winning finalists should report to Registration to provide their British Rowing Licence for inspection as soon as possible and return their race number. Failure to return race numbers will result in their club having to pay £5 per number not returned.

Please remove all blades that are not in use from the Landing Stage.

The circulation pattern and the course map are on the website www.bewdleyrc.co.uk/regattas/regatta, please make sure you have studied these.

Accident and Emergency Procedures

Members of Ace Medical Solutions are on duty by the main gate for the duration of the racing. They will provide first aid and accident and emergency cover. Members of BRC safety crew are on duty each day and will be on the water for the duration of the racing. Both crews can be contacted at the finish.

River safety is covered by BRC safety crew, and their launches are located near the start and finish of the course. Radio Communications are located at each Umpire Position along the course and each position is able to communicate with Race Control located at the finish.

In the event of an accident on the river, racing must be stopped immediately, the safety boats advised of the location and the first aid cover advised by Race Control. The communications channel should only be used by Officials dealing with the emergency during the emergency period. When the emergency has been dealt with, the Co-ordinating Umpire will advise all points along the course that the course is clear, and racing may resume.

Will all Umpires please note that a throw line is located at each Umpire Position.

Will all competitors note that river safety and first aid are not available outside the hours of racing and therefore practising on the river is strictly at their own risk.
